

See a GP online over secure video, from home or work - on your smartphone, tablet or PC

As part of our commitment to improving access for our patients at East and Mercian Hub, we're using **Q doctor** to enable video consultations with GPs.

Consultations are currently available on Sundays from 10am-12pm and we're hoping to expand this service in the future.

This means for certain conditions* you can see a GP from home or work, without having to come to the surgery.

Simply call your surgery to get an **appointment code** then book your video consultation online.
